

## PROTOCOL FOR ATTENDEES

Local, national and regional youth councils send greetings of solidarity to all young people around the globe. While recognizing that shared problems call for shared solutions, we salute all efforts of youth during the pandemic and many other global issues we are facing. As international delegations, we pledge to meet as necessary, and come together in the spirit of cooperation, From Youth to Youth, to constantly discuss meaningful youth engagement, exchange best practices and promote youth-to-youth leadership, from global ideas, to local actions.

The Global Youth Councils Congress will be hosted by the Kingdom of Morocco in the year 2022 to promote meaningful representation of young people, from youth leaders to their fellow youth. Together, we aspire to achieve the following:

- To encourage the mutual development of all youth councils worldwide through dialogues and other capacity building workshops
- To promote the Sustainable Development Goals within our own communities, while supporting youth leaders, peacebuilders, volunteers, entrepreneurs, innovators, artists and all other youth, to be their own agents of positive change
